

**Fast.
Affordable.
Reliable.
Secure.**

Contact the C3bb office at 812.752.7204 to schedule an appointment for a technician to complete a site survey and determine your signal strength. Installation will then take place at the site.

*Wireless Broadband
Internet Service*

"Our community is very fortunate to have wireless service and is appreciative of the **quality** of service that the City of Scottsburg provides. The Internet has certainly changed the way we do business today -- and C3bb has made a significant impact in our ability to attract new industry to the area, as well as enabling existing businesses to compete in corporate ventures. Thanks for a job well done!"

Broadband

WHY Broadband?

Broadband access is now viewed as a vital infrastructure similar to utilities, and is necessary to sustain and foster economic growth. Reliable and affordable Broadband access is critical to education, business, healthcare, government and community services. Without Broadband, we cannot remain competitive in the regional, national or global economy. High speed Internet access is essential in retaining current business as well as attracting new companies and jobs to the area.

WHY Citizens Communications?

Wireless Internet is one of the newest and fastest-growing Internet services available today and Citizens Communications Corporation provides the most powerful technologies available! Our C3 service offers incredible speeds -- ranging from small business/residential speeds of 128Kb up to corporate levels of 1.5mbps -- all supported by our amazing Internet backbone of T1 servers. We currently have 15 tower locations providing service to Scott, Jackson, Washington, Jefferson and Clark Counties.

HOW Do We Do It?

Citizens Communications (C3) uses high bandwidth, radio-managed equipment to offer high speed Internet and Intranet access. This line-of-sight technology can offer speeds ranging from 128kb up to 1.5mbps.

The C3 Broadband wireless network is run through distinct tower locations that distribute signal up to 12 miles from each individual tower. This allows us to cover large areas with a minimal amount of tower installations, as well as increase coverage quickly and efficiently.

Increase Your Horizons -- Get Connected!

For more information on specific situations, please call 812.752.7204, or e-mail c3bboffice@c3bb.com with any concerns or inquires. You can also check out the "Questions" section of our web site for frequently asked questions about the C3 service.

"Installation was very easy, service and reliability has been excellent, and C3's service is economical, always-on, and does not require a phone line for Internet connection. Beth, Jim and the support team are very knowledgeable and helpful. I recommend this service to anyone needing reliable and fast Internet service."
